

孫 皓月(SUN Haoyue)

Master's Student | International Economic Development | Hiroshima University

Email: sunhaoyue506@gmail.com

RESEARCH PROFILE

Applied economics researcher studying how public policy shapes agricultural and regional economic development. Current work uses county-level panel data and modern causal-inference methods to evaluate place-based agricultural policy in China.

Research interests: Policy Evaluation; Applied Microeconomics; Agricultural Economics; Regional Economic Development; Causal Inference; Local Institutions

EDUCATION

Hiroshima University Higashi-Hiroshima, Japan

- Apr 2025 - Mar 2027 (expected).
- Degree: Master's Degree in Economics.
- Course: Applied Econometrics; Microeconomics I & II; Agricultural Economics; Research Methods.

South China Normal University Guangzhou, China

- Sep 2020 - Jul 2024.
- Degree: Bachelor's Degree in Management.
- Course: Macroeconomics, Advanced Mathematics I & II; Sustainable Development of Tourism.

RESEARCH EXPERIENCE

Master's Research Project 2025 - present

Hiroshima University | Advisor: Niraj Prakash Joshi

Working title: Policy Evolution and Agricultural Effects of China's National Modern Agricultural Industrial Park Program: Dynamic and Cohort-Specific Evidence

- Analyze central policy documents to trace the evolution of MAIP policy design and implementation priorities.
- Use county-level panel data and staggered difference-in-differences to estimate the program's effects on agricultural development.
- Explore dynamic and cohort-specific patterns and interpret them in relation to policy evolution.

TEACHING ASSISTANCE

- **e-START Program: SDGs Course** Spring Semester AY 2026
- **Agricultural Economics** Fall Semester AY2026 (scheduled)

SCHOLARSHIPS & HONORS

Yahata Scholarship Foundation Apr 2026 - Mar 2027

Kumahira Scholarship & Cultural Foundation Apr 2025 - Mar 2026

SKILLS & LANGUAGES

Methods: Difference-in-Differences; IV; RCT; List Experiment; Statistical visualization; Panel-data analysis; etc.

Software: R; python; Nvivo; Microsoft Office.

Languages: Mandarin Chinese (native); English (academic working proficiency); Japanese (JLPT N2).

Academic membership: Student Member, The Association for Regional Agricultural and Forestry Economics (2026 - present).
